

YOU JUST BOUGHT A NEW HOME.

WHAT'S THE NEXT STEP?

Eagle Eye Home Inspection was founded in 2003. Through continuing education and experience, our team of certified professionals is ready to help you protect your investment.

We specialize in resale and warranty inspections, and print your report on site including digital photos.

After the inspection, you will receive a tour of your future home and we will discuss any issues or areas of importance you should know about.

IT TAKES A LOT TO BECOME A GOOD INSPECTOR.
YOU CAN COUNT ON EAGLE EYE
FOR A THOROUGH INSPECTION EVERY TIME.

Why should you have your home inspected? It could save you thousands of dollars in unnecessary repair costs whether your home is new or pre-owned.

Purchasing a home is the biggest investment most people make. According to the Federal Trade Commission, "Almost one half of all nationwide homeowners buying pre-owned houses have to make unexpected repairs... More than half of which appeared in the first six months..."

Rest assured that the quality of your inspection is priority number one for Eagle Eye Home Inspection.

Our quality inspections include computer-generated reports on site, realtor and customer website access, and current error and omissions insurance.

After each analysis, Eagle Eye provides a 96-page operating and maintenance book on how to keep your home in top condition for many years to come. This valuable book includes illustrations, explanations and "must-do" information.
